DYNAMIC LED MOUNTING SOLUTIONS

## 2020-2021 FORD RANGER

PART #: Z385881 / Z385881-KIT  
**REAR BUMPER LED LIGHT MOUNTS**

ZROADZ LED, INC. WAS ISSUED A U.S. PATENT FROM THE UNITED STATES PATENT AND TRADEMARK OFFICE (PAT. OR PATENT) 10,525,872  
 ALL RIGHTS RESERVED - COPYRIGHT ©2020 - ZROADZ LED, INC.

### PARTS INCLUDED

- (1) Driver Side Light Mount Bumper Bracket Kit
- (1) Passenger Side Light Mount Bumper Bracket Kit

### LED LIGHTS INCLUDED

**Z385881** - No LED Lights Included.

**Z385881-KIT** - (2) 6" ZROADZ LED Light Bars

\* LED Lights include a separate hardware kit.

### HARDWARE INCLUDED

#### Z385881

- (1) - Driver Side LED Bumper Brackets
- (1) - Passenger Side LED Bumper Brackets
- (4) - M8 Split Lock Washers
- (4) - M8 Stainless Steel Hex Nuts
- (4) - M8x16mm Stainless Steel Button Head Allen Cap Screws

#### Z385881-KIT

- (1) - Driver Side LED Bumper Bracketsa
- (1) - Passenger Side LED Bumper Brackets
- (1) - Double Terminal Harness
- (4) - M8 Split Lock Washers
- (4) - M8 Stainless Steel Hex Nuts
- (4) - M8x16mm Stainless Steel Button Head Allen Cap Screws

### TOOLS REQUIRED

- Prying Tool
- Various Socket Set
- Various Wrenches
- Ratchet Tool
- Ratchet Extensions

### INSTALLATION GUIDE

#### BEFORE YOU BEGIN

PLEASE READ AND UNDERSTAND ALL INSTRUCTIONS BEFORE INSTALLATION. Auto makers offer varied models to each vehicle and occasionally manufacture more than one body style of the same model. To assure your part is correct; our tech department can be contacted at [orders@zroadz.com](mailto:orders@zroadz.com) to verify fitment and assist with technical questions. All other inquires can be directed to [orders@zroadz.com](mailto:orders@zroadz.com). In the event you do not have internet access please call 844-653-8040

\* APPLICATION MODELS VARY. WE RECOMMEND TO VERIFY FITMENT BEFORE BEGINNING INSTALLATION PROCESS.  
 \* IMAGES FEATURED IN THE INSTRUCTION DOCUMENTS MAY NOT ALWAYS EXACTLY MATCH YOUR MODEL OR PART.

#### BEFORE YOU BEGIN

START HERE: Turn off engine, chalk tires with stop block, open the hood and disconnect the battery.

#### LED LIGHT BRACKET INSTALLATION

##### STEP 1

1) Open and unbox the ZROADZ package.

Sort out all components and hardware pack.

FIG 1

##### STEP 2

2) Assemble the pieces in this order:

- >> LED Light Bar fixes to the LED Light Bracket.
- >> Assembled LED Light & Light Bracket fixes to the rear bumper bracket.

##### SEE FIGURE 2

FIG 2A

FIG 2B

## LED LIGHT BRACKET INSTALLATION - CONTINUED

FIG 3

FIG 4

FIG 5

### STEP 3

3) From under the rear bumper, take your ZROADZ LED light mount and mock it up into position. This will help you gain familiarity with the mounting orientation.

Using a Socket, or Wrench, loosen & remove the bolts as seen in Figure 3. Keep and set aside for use at the end of Step 4.

### STEP 4

### SEE FIGURE 4

4) Prop the LED bracket mounts into place by positioning mounting tab slots to align with the factory bolt location. Re-insert Bolt and tighten down. Repeat on opposite side of vehicle.

### STEP 5

### SEE FIGURE 5

5) Using your best judgement, move the adjustable bracket piece into your preferred position, and finally tighten everything up for now. Look over your work and verify that the correct bracket has been mounted on the appropriate side of vehicle.

Put into place the LED Light and position into the light cradle.

FIG 6

### STEP 6

6) Wire LED Light with a ZROADZ optional wiring harness kit (part# Z390020D-25A) or by utilizing a compatible custom wiring harness. ZROADZ recommends LED Lights be wired with ZROADZ harness kit (part# Z390020D-25A).

### STEP 6

6) To adjust the angle of your Light Bar, rotate the LED(s) to adjust the angles till your desired light pattern is reached.

You may then tighten the hardware and also mounting bracket and secure everything into place. Be careful not to over tighten the mounting hardware.

It is best to adjust the angle with the vehicle on level ground with lights facing a wall, garage door or other solid barrier.

We recommend checking from a distance of 25'. Your installation is now completed.

## ZROADZ PRODUCT WARRANTY

### ZROADZ PRODUCT WARRANTY

ZROADZ LED, INC. WAS ISSUED A U.S. PATENT FROM THE UNITED STATES PATENT AND TRADEMARK OFFICE (PAT. OR PATENT) 10,525,872  
ALL RIGHTS RESERVED - COPYRIGHT ©2020 - ZROADZ LED, INC.

ZROADZ warrants its grille products to be free from defects in material and workmanship for the lifetime of the grille. ZROADZ warrants the finish of its grille products for a 3 year period beginning at the time of sale to the end user. These warranties are limited warranties and do not cover abuse, modification or improper installation nor do they cover finish failure caused by caustic cleaning agents, road salts or other chemicals. ZROADZ reserves the right to repair or replace a defective product at its sole discretion. Any ZROADZ product must be returned to ZROADZ for warranty consideration and must be returned at the customer's expense. In the event that the product is deemed to be defective, the repaired or replaced item will be returned via a surface shipping method to the customer at ZROADZ expense. No provision is made for any labor, rental car or other costs incurred by the failure of its products.

## LED LIGHTING EQUIPMENT INSTALLATION / DISCLAIMER

### WARNING

PLEASE CONSULT YOUR LOCAL AUTOMOTIVE ELECTRICAL PROFESSIONAL FOR INSTALLATION SERVICES AND ADVICE. ZROADZ IS ONLY EQUIPPED TO PROVIDE BASIC TECHNICAL ASSISTANCE DUE TO THE DIVERSITY OF VEHICLES, VEHICLE OPTIONS & MODIFICATIONS AND LIGHTING CONFIGURATION OPTIONS AVAILABLE.

ZROADZ cannot be held liable due to improper component installation and / or faulty wiring.

### GENERAL GUIDELINES

LED Lights & LED Light Bars operate at relatively high currents and should only be installed by qualified personnel with experience in Switched / relayed high draw DC Circuits.

- Light Bars are designed for use only with standard 12v DC power systems
- Light Bars are for OFF-ROAD USE ONLY. Check your local laws & regulations regarding vehicle mounted lights.
- Some Light Bars are equipped with waterproof connectors while others are simply pig-tailed
- Red Wires = POSITIVE | Black Wires = NEGATIVE
- ALWAYS install your lights on a fused circuit. Basic fusing guidelines: maximum 5A for every 10" of LED Light Bar.

### GENERAL USE, INSTALL AND ADJUSTMENT TIPS

NOTE 1: ZROADZ LED Light Bars themselves are for OFF-ROAD USE ONLY.

NOTE 2: Light Bars depending on the configuration of your vehicle and its options and/or modifications may need to be adjusted for appropriate beam projection. To adjust the angle of your light bars simply loosen the mounting hardware on either side of each Light Bar, rotate the Light Bar to adjust the angle, then tighten the hardware once the desired angle is achieved (please be careful not to over-tighten the mounting hardware or scratch the protective powder-coat finish). It is best to adjust the angle with the vehicle on level ground with the lights facing a wall, garage door or other solid barrier at a distance of approximately 25-30 feet.

NOTE 3: Please consult a qualified automotive electrical professional for light bar wiring installation.

NOTE 4: An optional universal wiring harness (part# Z390020S-A) is also available that includes high-heat & oil/fuel resistant wires, waterproof connector, 12v relay, 12v rocker switch, in-line fuse holder. Our universal wiring harness significantly expedites the installation process but is not a vehicles specific "Plug & Play" product and does not eliminate the need for a professional installation.

Please contact your local ZROADZ dealer for more information or visit [www.zroadz.com](http://www.zroadz.com).

## PRODUCT CARE INFORMATION

### PRODUCT CARE INFORMATION

Wash regularly as you would when caring for your vehicles. Never use dish soap. Never leave wet water spots as that may leave a blemish.

### MATTE BLACK FINISH

Paint warranty applies to defects in material and / or workmanship, it does not cover the matte finish surface appearance. To enjoy the matte appearance for many years to come, please follow these owner care and maintenance tips. Get a no-shine matte car wash soap that uses no fillers, no silicone, and won't strip your matte paint of its layer of protection. Do not use wax, detail spray, armorall®, or any products made for normal paint. Use only products specifically developed for matte finish paint. Do not use products that are even mildly abrasive, such as polishes, glazes, or rubbing compounds. Do not use mechanical cleaners or polishers. Do not use terry cloth, cloth, or paper towels. Do not rub the finish vigorously, this will burnish the paint finish, causing a permanent shiny spot. Shiny spots cannot be removed.

Do not use commercial car wash facilities or their shine enhancement products. Most car wash brushes, large mechanized "towels", and shine enhancement products can damage matte paint.

Remove foreign substances such as insect remains, tar, and road debris using a soft applicator and a mild solvent; saturate and soak area before cleaning - rub lightly.

Hand-wash with a soft wash mitt and mild cleaning product safe for matte paint. Use microfiber cleaning cloths with alcohol-based window cleaner for basic surface clean-up.

### GLOSS BLACK FINISH

ZROADZ with Gloss Black Powder Coated Finish may be washed regularly as you would when caring for your vehicles finish using soap and water. ZROADZ should be waxed at the same time that you wax the vehicle. As a general rule, anything you use to clean your vehicles painted surfaces can be used to clean and maintain your ZROADZ grille. A Gloss powder Coated Finish can be cared for in the same fashion that you would care for your vehicles factory paint job. Never leave wet water spots as that may leave a blemish.
